DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-2, 4, 7-12, 14-15 and 17 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per claims 1, 12 and 17, the preamble of these claims are directed to a navigation system or a receiver to be used within a navigation system for detecting a current position of a user in a building. However, there is no recitation in the body of these claims as to how the current position of the user in a building is being detected or determined by the recited structural elements. Further, in claim 12, the antecedent basis for "the decoded predetermined signature" on line 10 has not been set forth in the claim. It is suggested to change "a predetermined code" on line 4 to "a predetermined signature" to rectify the problem.

Claim(s) that have not been specifically indicated is/are rejected for incorporating the above error(s) from its/their parent claim(s) by dependency.

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

Art Unit: 3661

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
